

Altus Oil & Gas Malaysia Sdn Bhd

(201001017574)

Corporate Profile

www.altusoilandgas.com.my

Altus Oil & Gas Malaysia Sdn Bhd, a subsidiary of Altus Logistics Malaysia Sdn Bhd was founded in 2010. From its humble beginning with 3 personnel and a small office in Johor, Altus Oil & Gas Malaysia has since grown its presence in the country with offices and onshore bases in Labuan, Bintulu, Miri, Kota Kinabalu, Kemaman, Kuantan, Johor, Tok Bali and Kuala Lumpur. Later, the company headquarters moved from Johor to Kuala Lumpur and currently employs more than 61 personnel.

Altus Oil & Gas Malaysia has solidified its position over the years and is rapidly expanding in marine, logistics, and oilfield solutions. We provide solutions for our clients with supply chain management, supply base operations, marine and oilfield support, equipment, and storage facilities.

Altus Oil & Gas Malaysia has a long history of supporting the energy sector and forms part of Altus Logistics Global Network. Through years of operating in their respective fields, our fully trained people have the capacity to formulate applicable solutions for our clients.

Our Vision

Preferred supply chain solutions company for the energy industry in Malaysia

Our Mission

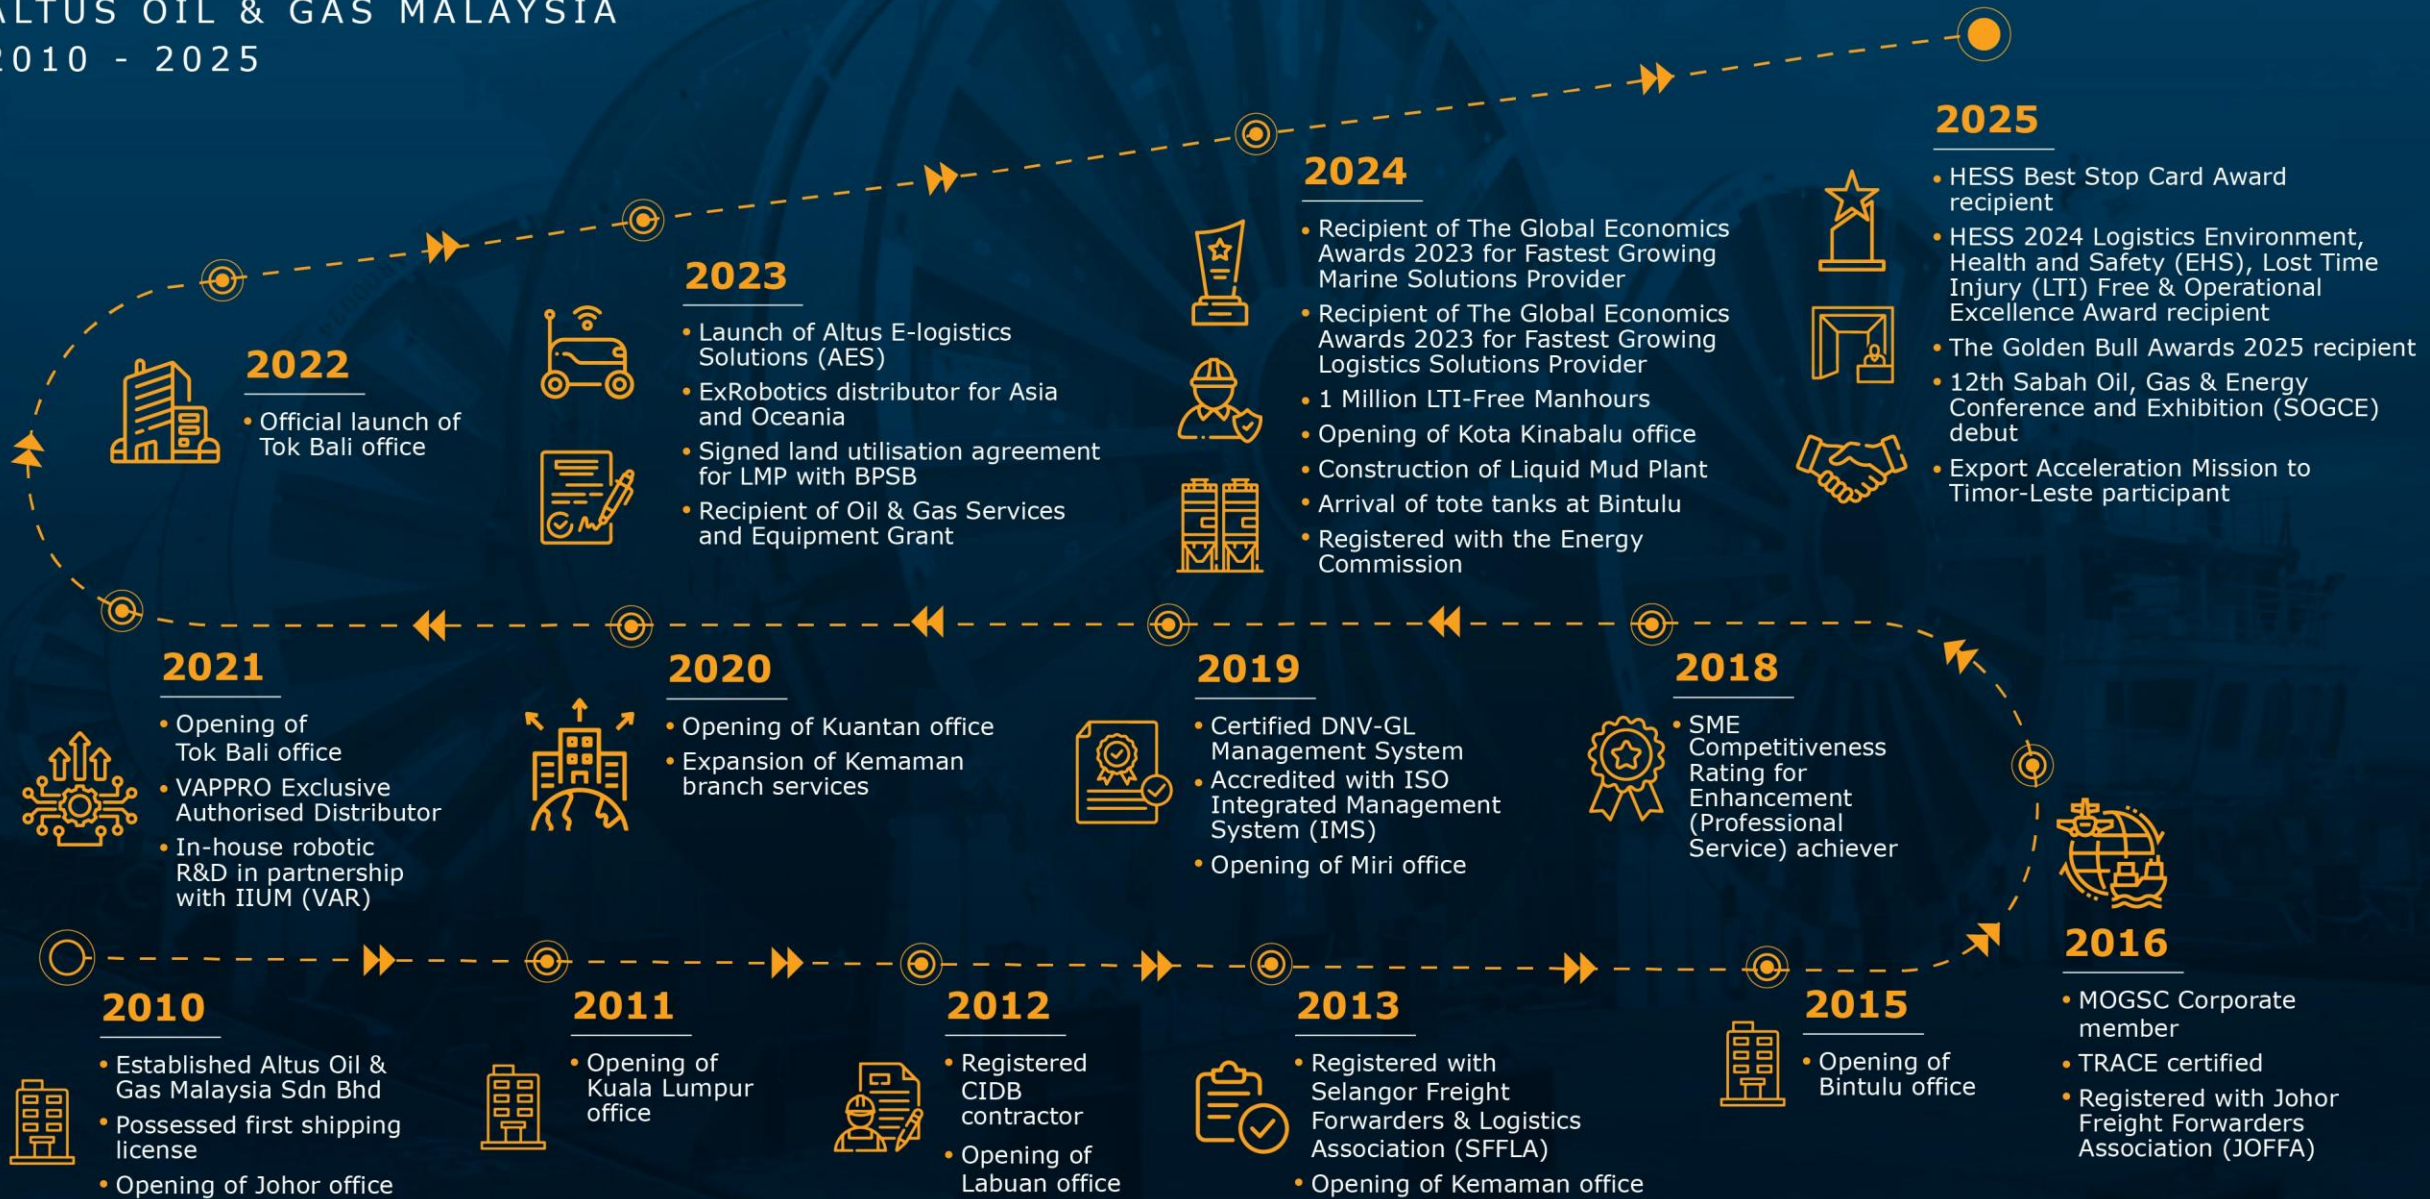

We aim to provide the best values through our solutions in Oilfield, Marine, and Logistics to our customers and partners. The value creation is through solutions to the challenges and the creation of new winning advantages for our customers and partners.

MILESTONE

ALTUS OIL & GAS MALAYSIA

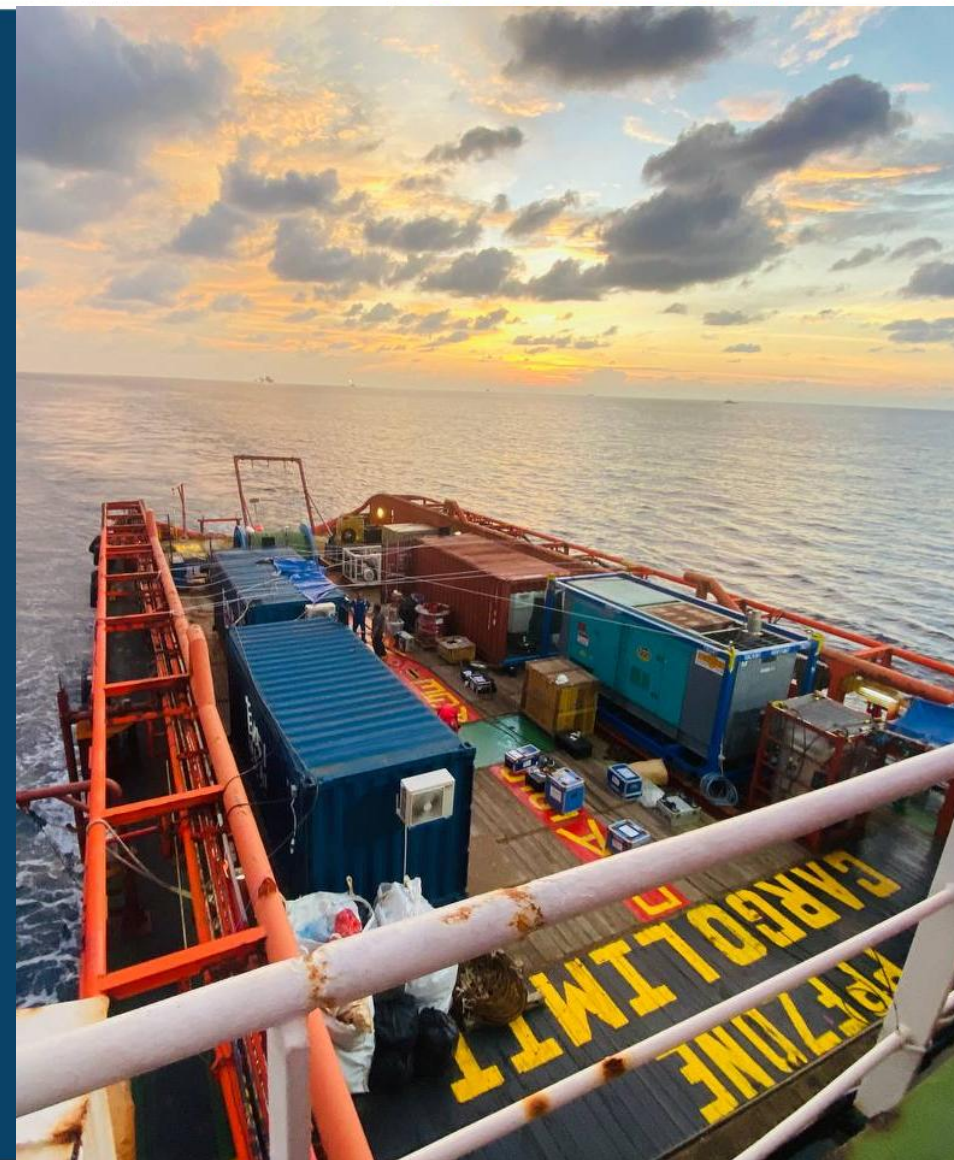

2010 - 2025

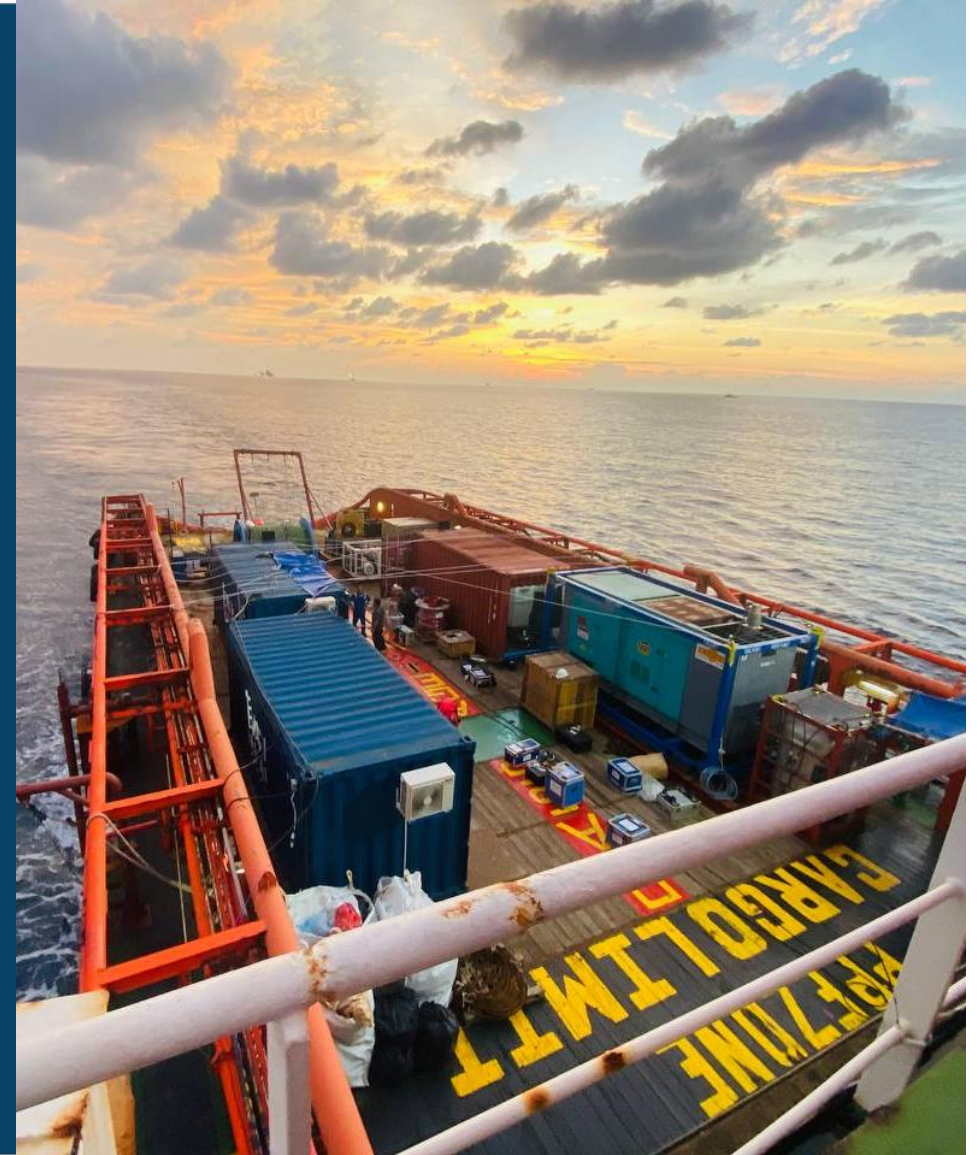

Marine Solutions

The provision of multiple activities related to vessels and rigs, are either provided to the clients within an integrated package or independently. Altus Oil & Gas's scope of work includes lay-up, preservation and maintenance, marine asset decommissioning, inspection and certification, and vessel charters.

Our lay-up services include hot lay-up mode (warm stacking) or cold lay-up (cold-staking). We evaluate the best lay-up location with the consideration of the client's asset current location and its next destination. To ensure the objective is met, we work with our clients to design the best turnkey lay-up scopes that match their cost-benefits, asset integrity and quick reactivation purposes.

Other than lay-up services, we are involved in equipment, spare parts and raw material preservation which covers the upstream and downstream industries. Preservation of equipment and spare parts is essential in maintaining the lifespan of the assets and managing the financial flow. At Altus Oil & Gas Malaysia, we provide state-of-the-art preservation services to our clients. The eco-friendly Vapour Corrosion Inhibitor (VCI) ensures spares are well preserved, at the same time minimising corrosion and damage while in storage. This preservation method covers a wide range of applications including electrical, mechanical and control systems.

Oilfield Solutions

The complementary services for oilfield solutions include offshore containers and equipment, lifting equipment, chemical handling, storage and transportation, and fluid management solutions.

We offer a wide range of highly certified offshore containers, baskets, tanks, skips, workspaces, and more. As an added value service, our clients can equip the equipment with a GPS tracking system to enhance real-time visibility and asset tracking. In addition to containers, our services include lifting equipment for attaching and loading appliances.

Logistics Solutions

Supply base operation is the most critical node of an offshore logistics supply chain. Selection of the location of an onshore base is also a key critical success factor that will determine cost benefits as farther distance means higher logistics costs.

Through years of operating offshore bases in Malaysia, Indonesia, China and Australia, Altus Oil & Gas Malaysia has developed relevant, vast experience and expertise. Thus, we are able to evaluate the best supply base location (which may include existing supply base, ports and/or any suitable waterfront facility) for each campaign project to ensure that our clients have the most cost and efficiency benefits.

Altus Oil & Gas Malaysia services in logistics solutions include supply base operation, consolidated trucking service, project logistics, custom brokerage, shipping agency, freight forwarding and e-logistics.

Our Clients

We interact with a wide range of clients who operate in various markets and require different solutions, enabling us to deliver a genuinely integrated suite of services that reflect the best practices.

Quality, Health, Safety, & Environment

- Certified with ISO 9001, 14001, and 45001 for Integrated Management Systems (IMS)

Sustainable Development

- Developing local communities
- Net-zero carbon target

Ethics & Compliance

- Employee Ethics
- Our partners are selected and vetted
- Comply with the Foreign Corrupt Practices Act (FCPA)

Our Certifications

Our integrated management system is certified by BV and reflects our dedication to QHSE.

Altus Oil & Gas Malaysia handles difficult jobs, in difficult locations, safely, and without harm to the environment.

Altus Oil & Gas Malaysia environmental policy ensures that, whenever practicable, our activities are ahead of legal requirements and standards for environmental best practice in the countries where we are operating.

Our ISO Certifications:

- ISO 9001:2015 (Quality Management Systems)
- ISO 14001:2015 (Environmental Management Systems)
- ISO 45001:2018 (Occupational Health & Safety Management Systems)

Additionally, Altus Oil & Gas Malaysia is a registered CIDB G7 contractor in Malaysia.

Award & recognition

At Altus Oil & Gas, we champion good corporate stewardship and have identified 3 focus areas for this purpose.

PEOPLE

Strategic intent: To create shared values for the local community through socio-economic mobilisation

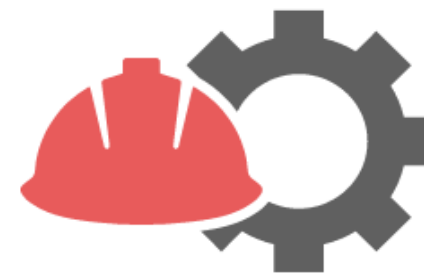

Strategic thrust: Participating and contributing to the community we are operating in through programmes that promote education, social inclusion and equal opportunity.

PLANET

Strategic intent: Committed to promoting and acting towards environmental best practices and sustainability

Strategic thrust: Protect, enhance and conserve the natural resources through choices and decisions that are sustainable and environmentally friendly.

WORKPLACE

Strategic intent: Providing a safe and conducive workplace

Strategic thrust: Creating a workplace culture that promotes respect, diversity, teamwork, safety and wellbeing, and employee growth through curated programmes and training that support, encourage and lead to the strategic intent.

Altus Oil & Gas Malaysia has clearly defined its corporate values, guiding us toward excellence in every operation, every time, everywhere.

Continuity

- Work towards a sustainable future in everything we do
- Create lasting and added value for our stakeholders
- Embrace changes – be open, flexible and well prepared
- Inspire respect and loyalty from our team and local communities

Endeavour

- Maintain the highest level of safety awareness for every job
- Commit wholeheartedly to meeting our goals and objectives
- Relish challenges – even when the going gets tough
- Remember that hard work and commitment bring lasting success

Excellence

- Approach challenges positively, professionally and responsibly
- Commit to exceeding expectations in every job we do
- Deliver according to agreed schedules and budgets
- Seek to be ahead of legislation rather than reacting to it

Humility

- Acknowledge our limitations and take responsibility for our failures
- Remember that we can always improve
- Respect, listen to and seek to learn from others
- Use failures and shortfalls as opportunities to improve and grow

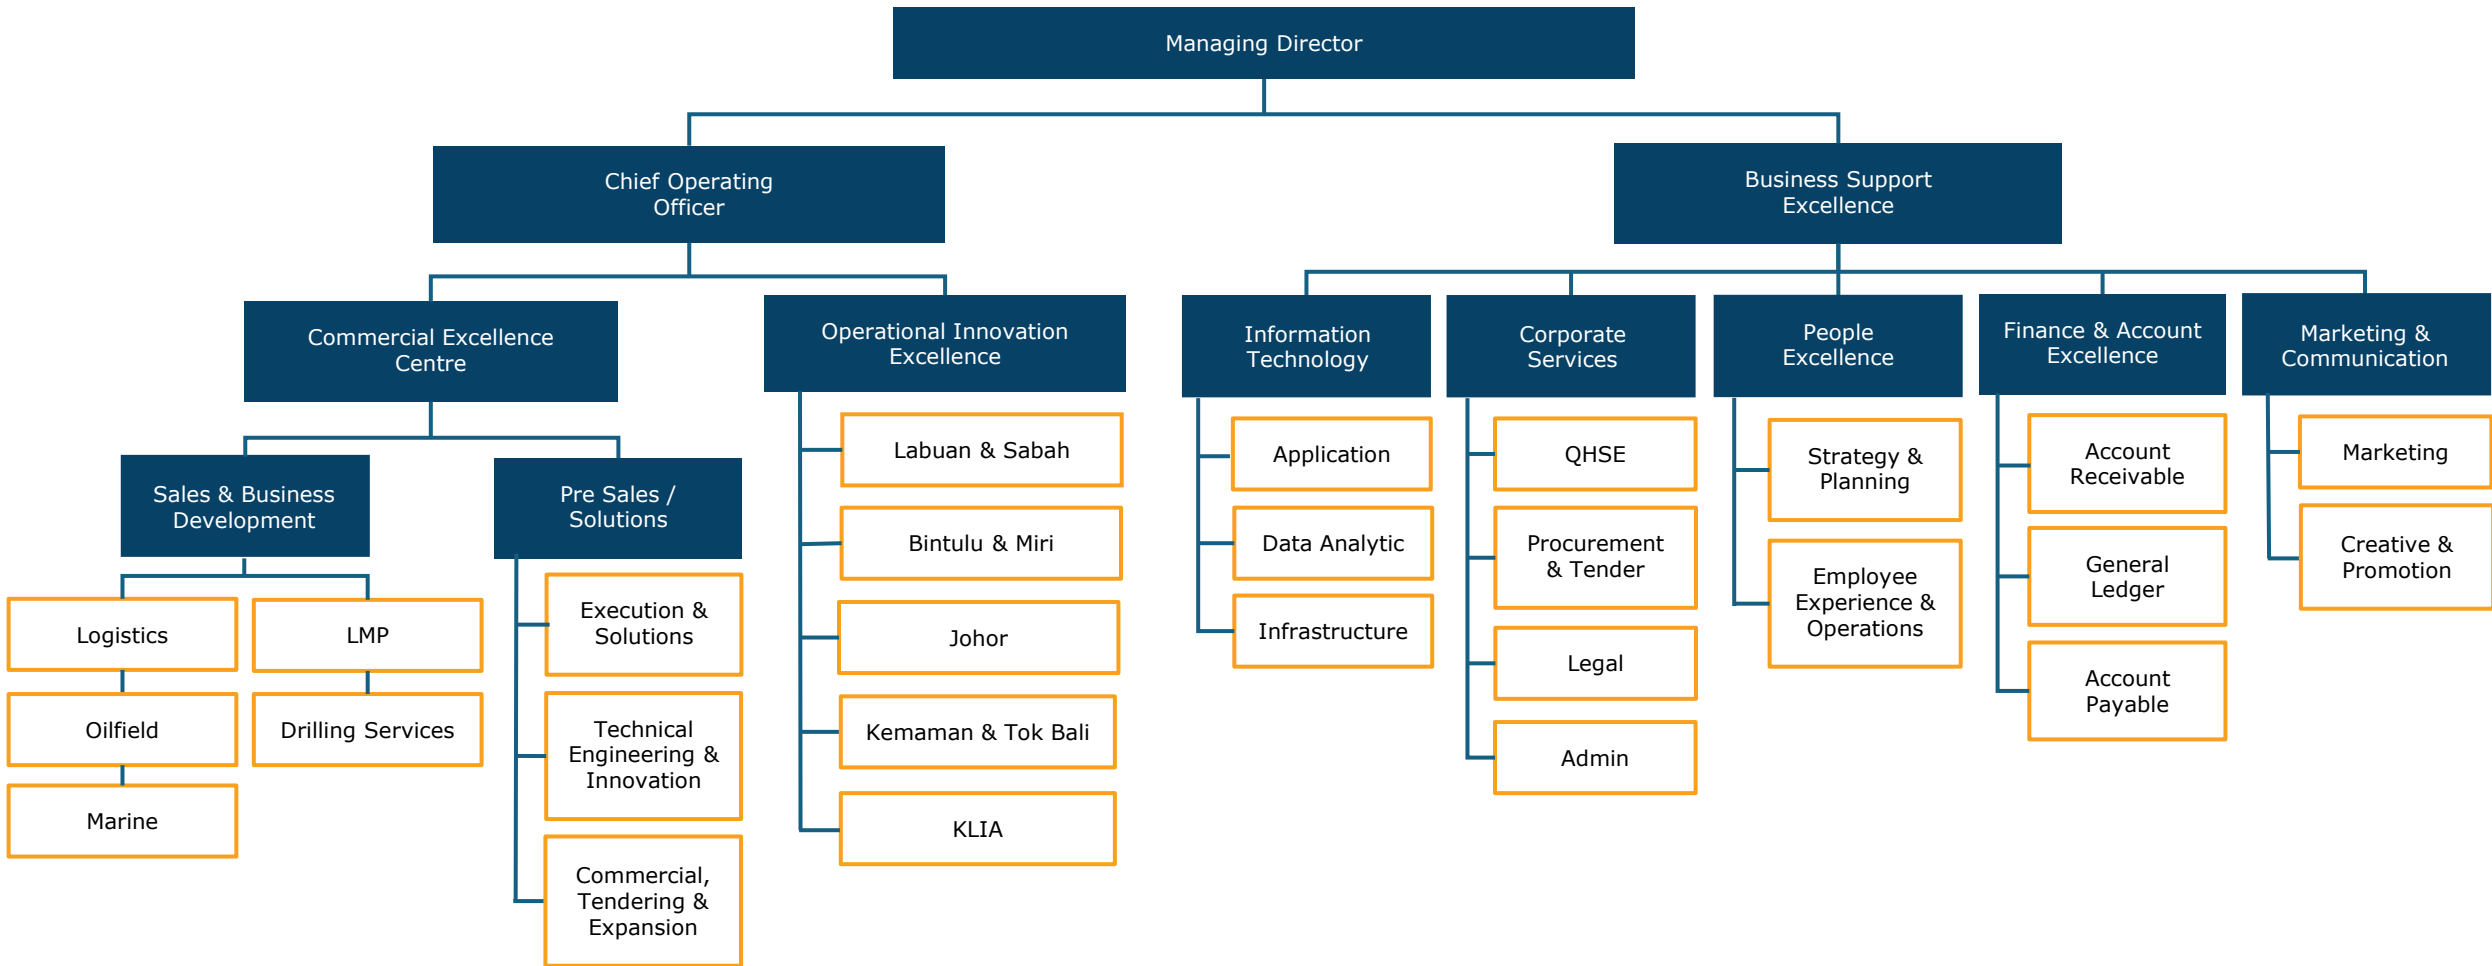

Integrity

- Act in all matters honestly, openly, and in the “right” way even where this is beyond formal regulations and requirements
- Create a bond of trust with our stakeholders
- Work to maximise our positive environmental impacts and be accountable for any damage we may cause

Teamwork

- Appreciate diversity and the contribution that every individual’s expertise and experience brings
- Work as One Team to complete difficult jobs in difficult places, safely
- Celebrate our successes and remember that they belong to all of us

Our Organisational Structure

Mohamad Bustami Yahaya
Chairman

Qualifications

- Certificate in Program for Executive Development II, MARA Institute of Technology
- Diploma in Professional Shipping, Norwegian Shipping Academy, Oslo, Norway

Expertise Summary

Mohamad Bustami has been a key figure at Altus Logistics Malaysia since 2010, serving as the Chairman of Altus Oil & Gas Malaysia Sdn. Bhd. With over 45 years of distinguished experience in the shipping and logistics industry, both regionally and internationally, his expertise spans a vast array of roles with some of the most esteemed organisations in the sector.

His remarkable career includes serving as Director of Johor Port Berhad and Malaysia International Shipping Corporation Berhad (MISC), where he dedicated 24 years of service. During his tenure at MISC, Bustami was responsible for overseeing operations, profit and loss management, and the MISC Agencies in Thailand, the UK, Australia, and New Zealand. Following his time at MISC, he contributed his wealth of experience to Halim Mazmin Berhad and Senai Airport Terminal Services Sdn. Bhd., where he held the position of Corporate Advisor until 2010.

Major Zulkifli Mohd Mohd Yusof (Rtd)
Executive Director

Qualifications

- Rtd, Royal Malaysian Air Force
- Diploma Building, MARA University of Technology
- Maktab Tentera Diraja Malaysia

Expertise Summary

Major Zulkifli (Rtd) has been the cornerstone of Altus Logistics Malaysia Sdn. Bhd. and Altus Oil & Gas Malaysia Sdn. Bhd. bringing over 35 years of distinguished experience across both military and corporate sectors. In 2020, he expanded his leadership role as the Executive Director of Altus Aviation Services Sdn. Bhd., where he shapes the company's strategic direction and oversees its daily operations.

A former officer in the Royal Malaysia Air Force (RMAF), Major Zulkifli served with distinction for 20 years, culminating in his role as the Chief Instructor at the RMAF Management and Administration Training Centre. After retiring from the military, he made a seamless transition into the corporate world, joining Zetro Aerospace Corporation Sdn. Bhd. and later pioneering the growth of Systematic Aviation Services Sdn. Bhd. As a key figure at Systematic Aviation, he played a pivotal role in its development, ultimately serving as Director of Government Services.

Mohammad Taufik Othman
Managing Director

Qualifications

- Executive Course in Port Management at World Maritime University Malmo, Sweden

Expertise Summary

As the Group Managing Director of Altus Malaysia, Mohammad Taufik is a dynamic and visionary leader who has been instrumental in shaping the strategic direction and growth of the company. With over 25 years of experience spanning logistics, supply base, marine services, and oilfield services, Taufik has an outstanding track record of leading transformative projects at both regional and international levels.

Since 2010, he has served as Chairman of the Board and Board Member of Altus Logistics Malaysia Sdn. Bhd. and Altus Oil & Gas Malaysia Sdn. Bhd., and holds an Executive Director position at Altus Freight Management (M) Sdn. Bhd. and Altus Aviation Sdn. Bhd. His career milestones include overseeing the Maersk and Evergreen Hub at Pelabuhan Tanjung Pelepas, driving the creation of the Tanjung Bin Petrochemical hub, and leading the privatization of Mina Salman & Khalida Bin Salam Port in Bahrain.

Before founding Altus Oil & Gas Malaysia, Taufik's leadership journey include an 11-year tenure at Pelabuhan Tanjung Pelepas, followed by a role as Commercial Manager at Senai Airport Services in 2002. His expertise and strategic foresight continue to elevate Altus as an industry leader.

Muhammad Nor Azam Abdul Jalil
Chief Operating Officer

Qualifications

- Bachelor of Science (Computing and Industrial Mathematics), Universiti Malaya

Expertise Summary

Muhammad Nor Azam brings over two decades of experience in international logistics and freight forwarding to his role as Chief Operating Officer of Altus Oil & Gas Malaysia Sdn. Bhd. His expertise covers upstream, downstream, and petrochemicals projects, having provided logistics strategy for major oil and gas companies and EPCIC contractors.

Prior to joining Altus, he led transformational improvements to expediting and logistics functions while managing global vendor performance at Pengerang Refining Company Sdn Bhd. He established global network with regulatory authorities across multiple countries—a capability that directly enables smoother project approvals, customs navigation, and vendor compliance for upstream, downstream, and petrochemical operations.

Additionally, his roles include strategy development, global key account management, and regional operations across major projects such as the Ichthys Gas Field Development and BASF PETRONAS Chemicals Verbund Project. In his role at Altus Oil & Gas Malaysia, he will lead complex operations, forge high-impact strategies, and leverage his global regulatory network to drive seamless project execution and strengthen the company's operational performance.

Saliza Mohd Said
Head of Operations

Qualification

- Master in Business Administration, United Brussels Institute, Belgium
- Diploma/Degree Computer Science, Universiti Teknologi Malaysia
- American Degree Program (ADP) MARA Undergraduate Program, Yale University

Expertise Summary

Saliza joined Altus Oil & Gas Malaysia Sdn Bhd in October 2021 as Head of Region for Johor, bringing over 20 years of experience in the industry. She began her career as an operations executive at Kontena Nasional Berhad and has since advanced to hold key positions in leading companies across the transportation, logistics, and supply chain sectors, with significant exposure to project management.

With expertise in quality assurance, warehouse management, stakeholder management, crew management and project execution, Saliza currently oversees all operational activities at Altus Oil & Gas Malaysia. As Head of Operations, she ensures seamless and efficient operations across all branches, driving performance and operational excellence throughout the organisation.

Rosli Hussin
Head of Corporate Services

Qualification

- Bachelor of Science (Marine Science), Universiti Putra Malaysia
- Logistics Management & HSE Officer Competence Certificate, NIOSH Malaysia

Expertise Summary

Rosli assumed the role of Head of Corporate Services at Altus Oil & Gas Malaysia on 1 March 2024. Over the years, he has held various key positions, including Branch Manager for Labuan, General Manager of Operations, and most recently, Head of Logistics Solutions since 2023.

Starting his career with Pelabuhan Tanjung Pelepas Sdn. Bhd. (PTP) in 2000 as one of the first Management Trainees, Rosli quickly advanced to become Operations Manager in the Marine Services Department and later as an HSE Manager. With expertise in port and supply base management, supply chain management, marine services, and HSE compliance, Rosli brings a wealth of knowledge and experience. He is also a qualified external auditor for ISO 9001, 14001, and 45001.

Hameerul Ferzdous Basari
Head of Information Technology

Qualifications

- Bachelor Degree in Information Studies, MARA University of Technology
- Diploma in Information Management, MARA University of Technology

Expertise Summary

With over 16 years of experience in the oil & gas, manufacturing, and technology sectors, Hameerul has held senior roles at Electrolux Group, Weir Minerals, Dyson, and Hess Corporation. Specialising in business intelligence (BI), data analytics, and application development, he has led global initiatives in analytics project deployment, data visualization, and software customization, driving data-driven decision-making across organisations.

Joining Altus Oil & Gas Malaysia in February 2025, Hameerul leads digital transformation efforts, including ERP implementations and business intelligence strategies. By aligning objectives, he is dedicated to enhancing operational efficiency, enabling scalable digital solutions, and providing strategic insights to propel the company's growth and innovation in the oil & gas sector.

Haniza Jasmani
Head of People Excellence

Qualification

- Masters in Business Admin (MBA), MARA University of Technology
- Degree in Economics, International Islamic University Malaysia

Expertise Summary

Haniza joined Altus Oil & Gas Malaysia Sdn. Bhd. to pursue her passion for human development, driving results through strategic people management. Her journey within the company began in tender & procurement before transitioning to learning & development, and she now serves as the Head of People Excellence.

With over 25 years of experience, Haniza has built a strong foundation in the transportation and logistics sectors, having worked at MISC Group and Port of Tanjung Pelepas (PTP). Her expertise spans across Human Resources, Corporate Planning, Risk Management, and Contracts & Procurement, providing her with a comprehensive understanding to align organisational strategies and drive operational excellence.

Haniza is also a certified competency developer by the Accredited Competency Professional (ACP) Institute Leadership & Management (ILM), United Kingdom as well as a certified trainer (Train the Trainer) by Pembangunan Sumber Manusia Berhad - HRDF (Malaysia).
